Domain	No.	Description	Priority	Status	TO DO № / Remarks
Basic checks	1	Installation app	-	-	
	2	Unistall app	-	-	
	3	Check/download new app version	-	-	
	4	Run the app (displaying the Splash Screen)	-	-	
	5	Basic functionality of the app	-	-	
	6	Payment verification	-	-	
	7	Filters testing	-	-	
	8	Bonuses	-	-	
	9	Check that errors are displayed correctly	-	-	
	10	Work with files (sending/receiving/viewing)	-	-	
	11	Testing stubs (no connection to the Internet, no goods)	-	-	
	12	Scroll/Swipe elements	-	-	
	13	Testing PUSH notifications	-	-	
	14	Rolling up/Unfolding app	-	-	
	15	Connection type (cellular)	-	-	
	16	Connection type (Wi-Fi)	-	-	
	17	Screen orientation (landscape/portrait)	-	-	
	18	Dark/Light Themes	-	-	
	19	Advertising in the app	-	-	
	20	Sharing content in social networks	-	-	
	21	Work of the app in the background	-	-	
	22	Paging	-	-	
	23	Privacy policies and other links to documents	-	-	
Compatibility testing	24	Correct geo display	-	-	
	25	Transaction information (checks, etc.)	-	-	
	26	Payment methods (Google Pay, Apple Pay, etc.)	-	-	
	27	Sensor testing (light, device temperature, gyroscope, etc.)	-	-	
	28	Test interruptions (incoming call/sms/push/alarm clock/don't disturb mode, etc.)	-	-	
	29	Connecting external devices (memory card/headphones, etc.)	-	-	
Security Testing	30	Permission verification (access to camera/microphone/gallery/etc.)	-	-	
	31	User data (passwords) are not transmitted in plain text	-	-	
	32	In the fields with password input and password confirmation, the data is hidden by asterisks	-	-	
Localization and globalization testing	33	All elements in the app are translated into the relevant language	-	-	
	34	The languages are embedded inside the app and the user can set the necessary language in the settings of the app	-	-	
	35	Texts depend on the language in the system settings	-	-	
	36	The texts come from the server	-	-	
	37	Correct display of date formats (YEAR - MONTH - DAY or DAY - MONTH - YEAR)	-	-	
	38	Correct time display depending on the time zone	-	-	
Usability Testing	39	Correct display of items on devices with different screen resolutions	-	-	
	40	All fonts comply with the requirements	-	-	
	41	All texts are correctly aligned	-	-	
	42	All error messages are correct, with no spelling or grammatical errors	-	-	
	43	Correct screen titles/headers	-	-	
	44	Search strings contain placeholders	-	-	
	45	Inactive items are displayed in gray	-	-	
	46	The links to the documents lead to the relevant section on the website	-	-	
	47	Animation between crossings	-	-	
	48	Correctly returning to the previous screen	-	-	
	49	Supports basic touch screen finger gestures (swipe back, etc.)	-	-	
	50	Pixel-Perfect	-	-	
Stress testing	51	High CPU load	-	-	
	52	Shortage of memory	-	-	
	53	Battery Loading	-	-	
	54	Refusal	-	-	
	55	Low network bandwidth	-	-	
	56	A large number of user interactions with the app (this may require simulating real network conditions)	-	-
